

Appl. No. 10/797,420

Amdt. dated 19 October 2006

Reply to Office action of 20 July 2006

**Amendments to the Specification:**

Regarding your comments on the drawings as initially filed, I have reviewed the drawings and I have found a typo in Fig. 4. I have therefore amended Fig. 4 and the details of the amendments made to the drawings are detailed in the section "Amendments to the Drawings" below. For Fig. 5, I understand from your comments that the drawing is not clear and so I have tried to enlarge the original Fig. 5. However, after enlarging Fig. 5, I found that the original Fig. 5 has to be separated into two drawings in order to show clearly. I therefore replace the original Fig. 5 with a new Fig. 5a and Fig. 5b. Accordingly, please replace paragraph [0027] with the following amended paragraph:

[0027] FIG. 5a and FIG. 5b are [[is]] the circuit diagram of the present invention.
